

THE CHECK UP

Meet our Nurse Practitioners

Robyn McCullough
Nurse Practitioner

Pratik Parikh
Nurse Practitioner

Binda Wang
Nurse Prescriber

Ashleigh Fox
Nurse Practitioner Intern

At Crawford Medical Centre we're proud to shine the spotlight on our highly skilled team of Nurse Practitioners and Nurse Prescribers.

 **Advanced Education:** Our Nurse Practitioners and Nurse Prescribers have extensive education and clinical training, equipping them with the expertise needed to provide excellent medical care.

 **Comprehensive Care:** From common to complex conditions, our providers combine their advanced nursing knowledge and skills with diagnostic reasoning and therapeutic knowledge and are equipped to address a wide range of health needs, providing personalised treatment plans just for you.

 **Diagnostic Mastery:** With the ability to make precise diagnoses our Practitioners utilise interpretive skills to ensure accurate assessments and effective treatment strategies.

 **Empowered Prescribing:** Just like medical practitioners, they make diagnosis, order and interpret diagnostic and laboratory tests and hold the authority to prescribe medications within their area of competence.

Crawford Medical is expanding...

Watch this space! Soon to open on Mellons bay Road is our newest, state of the art, modern medical facility extending our offering of specialist medical services to the community.

Covid vaccine

New variant XBB.1.5 – available now

Boosters are now available from 16 years old, with eligible conditions. Also available are primary vaccines for those age 12 years and over. If you're unsure if you're due, please call our nurses on 09 538 0083.

Pediatric vaccines changes - more info to follow when this is released.

Call our admin team to make an appointment with your Practitioner on 09 538 0083

Flu – Protect yourself this Winter

Funded flu vaccinations are available for those who meet the eligibility criteria, please call to make an appointment on 09-538-0083 or book on the App or online via Manage My Health 'MMH portal.

Non funded flu vaccines are available to those age 65 years and over, please check in with the nurses if you require any of these vaccines.

It's important for us to have the correct information for you on file. Please regularly update your details, including your next of kin information, via our reception team.

We would like to take this time to thank you for your ongoing support.

Measles

Are you up to date with your immunisations?

Very few people who are fully vaccinated get measles. Two doses of the MMR vaccine is 99% effective in preventing measles.

It is recommended that anyone born after 1968 have documented evidence of two doses of MMR vaccine given after 12 months of age. This is in addition to any measles-only vaccine they may have received.

Like, follow and review us for a chance to WIN!
